**PURDUE BIOLOGICAL SAFETY AWARENESS CERTIFICATION**

The Occupational Safety and Health Administration (OSHA) requires that employees be made aware of the biological hazards at their place of employment.

After reading the "Purdue Biological Safety Manual," please complete and return a copy of this form to your supervisor or Designated Trained Individual. By signing below you acknowledge that you are aware of the Purdue Biological Safety Program and the policies and procedures applicable to your work. Your supervisor will provide additional information and training as appropriate.

Name \_\_\_\_\_ Phone \_\_\_\_\_

**Catch certification scheme for fishery products exported from Norway to the European Community under Articles 12 (4) and 20 (4) of Council Regulation EC 1005/2008 and the Commission Regulation laying down the detailed rules for the implementation of the same Regulation to replace the European Community catch certificate**

Document No		1. Issued and validated electronically by	
Address		Telephone number	Telefax number
2. Fishing vessel Name		Flag — Home port and registration number	IMO/Lloyds Number (if issued)
Fishing licence No. — Valid to		Inmarsat number, telefax number, telephone number. E-mail address (if issued)	
3. Description of product		Type of processing authorised on board	4. References of applicable conservation and management measures
Species	Product code	Catch area(s) and dates	Verified landed weight (kg). (Estimated weight to be landed if direct landing to EC port)
5. Name of master of fishing vessel (not applicable if direct landing in an EU port)		Number of sales note with masters original signature (original signature not applicable if direct landing in an EU port)	
6. If transhipment at sea, date, area and position		7. If transhipment within a port area, date and name of port	
Name of buyer or receiver of the fish		Receiving vessel name	IMO/Lloyds number (if issued)
<b>7. bis Provisions for consignments of stock fish, salted fish and salted and dried fish (klippfish) under CN 03.05.</b> Name of producer responsible for keeping record of all sales notes containing information of the raw material used in the production. List document number for each sales note.			
Address		Telephone number	Telefax number
Type of fishery product	Species	Product CN code	Product weight (kg) in the consignment
8. Name and address of exporter		Signature	Date
9. Flag State Authority Validation: This certificate is issued and validated electronically in accordance with the catch certification scheme for fishery products exported from Norway to the European Community under Articles 12 (4) and 20 (4) of Council Regulation EC 1005/2008 and the Commission Regulation laying down the detailed rules for the implementation of the same Regulation Ref: <a href="http://www.catchcertificate.no">www.catchcertificate.no</a>			
10. Transport details, country of exportation		Port / airport / other place of departure	
Vessel name and flag	Container number(s): list attached.	Name	Address
Flight number/airway bill number			
Truck nationality and reg.number			
Railway bill number			
Other transport documents			

What is an appendix certificate. What is an appendix d form. Fire (codified) requirements as per appendix a and appendix b. Can you add an appendix to a letter.

Physical Address 349 N Center Street Statesville, NC 28677 Directions Mailing Address P.O. Box 788 Statesville, NC 28687 Citizen Self-Serv Commercial Plan Review & Commercial Inspections Phone: 704-878-3113 704-928-2016 ext. 3116 Monday - Friday 8 a.m. - 5 p.m. Permit Hours: payments received 8 a.m. - 4:15 p.m. for applications & general inquiries please arrive no later than 4:30 p.m. Staff Directory Any new construction, or any addition, alteration or repair to an existing building requires a building permit. Wiring, plumbing and mechanical installations such as furnaces and wood stoves also require the issuance of appropriate permits before the work is performed. Once work is underway, permit holders are required to call for inspection of the work at various stages of the project. The Building Division issues permits and performs inspections for all of unincorporated Lincoln County and for the cities of Depoe Bay, Siletz, Toledo, Waldport and Yachats. If you are planning new construction, or remodeling work on an existing building, please contact the Building Division to determine the appropriate permits that will be required for your project. See how to apply for permits, requirements for building plans, and required inspections. See the Lincoln County Code: Chapter 3: Building Code Questions? Call us at 541-265-4192 Code Questions: Ask to speak with an inspector or the building official, between 8:00am - 9:00 am. General Questions: Ask to speak with a Permit Specialist. Architects General Contractors Building Official & Plans Examiners Inspectors Owners Subcontractors Code Consultants The Development Services Department (DSD) accepts and processes commercial permit applications for projects in the City of Asheville. Click here to confirm that your property is located in the City of Asheville's permitting jurisdiction. A complete list of application forms and resources are listed below by project type. Submit completed forms and applications in .PDF format online through the Development Portal. Zoning requirements can impact commercial development. Prior to preparing plans, obtain information specific to your site or schedule an Early Assistance meeting. Click here for applications and information for large commercial Level II, Major Subdivision and Conditional Zoning projects that will require Technical Review Committee (TRC) review. DSD's Permit Application Center (PAC) is located at 161 South Charlotte Street and open Monday to Friday to assist customers from 8:30 a.m. - 5:00 p.m. (closed on public holidays). Customers can also contact [pac@ashevillenc.gov](mailto:pac@ashevillenc.gov) or 828-259-5846 with questions. Click here for additional staff contacts. Application Forms and Resources by Project Type Application forms and resources are listed below by project type: Stand Alone Trade Permit Minor Subdivision/Recombination Minor Subdivision/Recombination Revisions Application Package Commercial Signs/Merchandise/Outdoor Dining Temporary Use/Events/Mobile Food Vending New Construction/Additions Note: For additions over 500 square feet Required Building Construction Forms Required Site Development Forms Supplemental Forms (may be applicable) Project Close-out Forms Resources Alterations/Renovations Required Building Construction Forms Supplemental Forms (may be applicable) Project Close-out Forms Resources Tenant Upfit- First Occupancy Required Building Construction Forms Supplemental Forms (may be applicable) Project Close-out Forms Resources Commercial Repair/Replace Apply online (login required) Tenant Occupancy- Existing Building Tenant Occupancy Application Commercial Reroof Commercial Application Lien Agent Designation Commercial Demolition Before your building is demolished, consider allowing the Asheville Fire Department (AFD) to use your building for valuable life safety training. Please contact Fire Division Chief Wes Rogers at [wrogers@ashevillenc.gov](mailto:wrogers@ashevillenc.gov) or 828-232-4511 to discuss. Commercial Solar PV Short-term Vacation Rentals (STVR) Annual Short Term Vacation Rental (STVR) Application Tree Removal Commercial Development Fees Commercial Permit Information Lien Agent Designation Effective for construction projects beginning on or after April 1, 2013. North Carolina law requires appointment of a lien agent. Contractors and subcontractors can then give notice they are working on the project. Appointments are not required for (1) improvements under \$30,000 or (2) to the owner's existing residence or (3) for public building projects. Our office will require the lien agent designation before a permit will be released for commencement of construction, including stand alone permits. You may visit the website [LiensNC.com](http://LiensNC.com) for additional information and a step-by-step guide to completing the designation process online. Stand Alone and Multi-Trade Permits A permit for a minor residential installation is called a stand alone trade permit. If an installation requires more than one type of installation, it is referred to as a multi-trade permit. Plumbing, electrical or mechanical (HVAC) projects that do not require plans, but require a permit, can often be issued the same day they are requested. Projects in this category include: installing a new electrical circuit placing a heating system adding or replacing a water heater Licensed contractors are encouraged to use the Citizen Access website to apply online for these permits. Permits are issued at application when using this website. Applications may also be emailed to [pacstandalones@ashevillenc.gov](mailto:pacstandalones@ashevillenc.gov) or faxed to (828) 259-5676. Small Project Permits Seemingly uncomplicated projects may require plan submittal and review from multiple disciplines. Small project permits can often be issued more quickly than other permits; estimate around 10 working days. Examples of small projects include signs, temporary use permits, or tenant up-fits of existing units. Standard and Large Project Permits Within "standard" and "large" commercial projects the scale and complexity can vary greatly but they always require technical review by multiple disciplines. The "standard" category covers most low to mid-rise construction. The "large" commercial project category will generally take longer to review due to special detailed requirements based on use and occupancy. High rise construction, covered malls, multi-family buildings over four stories or over 100 units, assemblies of greater than 1,000 occupants, education buildings, institutional buildings, and hazardous uses are considered large commercial projects. The anticipated review times reflect project complexity. Consult the review times matrix to understand how long it will take staff to review your project. Occupancy or Tenant Change With No Construction Work Performed If you are moving into a vacant tenant space with a new business similar to previous tenant and will not be performing any construction work, you need to secure Tenant Occupancy. The life-safety criteria and permit process is defined in the Tenant Change Out Bulletin (found above). Please complete the Tenant Occupancy Application (found above) and bring it to the Permit Application Center. In most cases, the permit can issued at the time of application, and inspections can be performed the next day. If the use you are proposing is classified differently from the previous use, you will be asked to submit plans for review. Business Licenses The City of Asheville no longer has the authority to collect a privilege license tax (i.e. business license), with the exception of beer and wine taxes. This is in accordance with North Carolina S.L. 2014-3 Section 12, effective July 1, 2015. It should be noted that while the Local Privilege License Tax is no longer being collected, the State Privilege License authority is still in place. Streamlining Constituent Services 2022: Examples & Helpful Tips August 22 2022 Most (if not all) local government departments interact with constituents every day, especially when it comes to accepting and processing various ...
